

The Sports Doctor contributes to new book

July 8, 2013 1:40PM

"Anatomy of a Figure Skating Injury," by John Harmata

Updated: July 10, 2013 2:50AM

Dr. Robert A. Weil, a personal sports podiatrist to Olympic gold medalist Evan Lysacek, is a contributing consultant to the new book "Anatomy of a Figure Skating Injury," by John Harmata, aka Mr. Edge. After more than three decades of working with competitive figure skaters, Harmata has documented the relationship between proper boot fit, blade mounting, sharpening and the role each of them can play in causing injuries to skaters.
